## MONSOON SCHOOL

“Generating impact in complex coastal and marine contexts: co-design and development of transdisciplinary research projects”

1 - 10 November 2023 | online

This 1.5 week training course will be all about **collaboration and co-designing**. A focus will be on tropical coastal settings as examples of urgent sustainability challenges and complex social-ecological systems.

### Event highlights

- You develop and implement a transdisciplinary research project and plan which will increase societal impact.
- **8 days full of exchange** with leading international academics, practitioners and experts in knowledge transfer and communication at the science/policy interface.
- **Intense program of transdisciplinary** backgrounds, concepts, and methods.
- Learn about different models of impact pathways, developing a theory-of-change and how to tackle inequality.
- **Train your transferable skills** about communicating science to various actors and audiences.
- **Meet other international early-career scientists** and continue building up your network.

### KEY FACTS

Dates: 1 - 10 November 2023

Place: Online

### APPLY NOW

Application deadline: 31 August 2023

Upload your letter of motivation, project idea or potential case study, and a short CV to:

[https://forms.leibniz-zmt.de/Wordpress/?page\\_id=1035](https://forms.leibniz-zmt.de/Wordpress/?page_id=1035)

### CONTACT

Sebastian Ferse ([sebastian.ferse@leibniz-zmt.de](mailto:sebastian.ferse@leibniz-zmt.de))

Achim Schlüter ([achim.schlueter@leibniz-zmt.de](mailto:achim.schlueter@leibniz-zmt.de))

### Who can apply

We invite applications from PhD candidates and post-doctoral scientists worldwide and from various disciplines in the field of marine research, ideally in or anticipation of the “design” phase of an own project. Please **outline your motivation** why you want to learn about transdisciplinarity and **submit a project idea or potential case study**. Prior experience in transdisciplinarity is not required, preference will be given to participants with concrete project ideas.
